

0.0.1 Currents

1. Standing on one side,
that deva addressed the Aus-
picious One in a verse.

“From where do currents
stand still,
where does the round not
revolve;
where are name and
form,
completely held in check?”

“Where water and earth,
fire and air do not find a
footing;
from here currents stand
still,
here the round does not
revolve;
here name and form,
are completely held in
check.”
